* The mean population for the year is obtained as follows;—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

VI.—METEOROLOGY.

No. 79.—NOTES ON THE CLIMATE OF WESTERN AUSTRALIA FOR YEAR ENDED 31st DECEMBER, 1911.

(*By the Commonwealth Meteorological Divisional Officer for Western Australia.*)

In Western Australia seasons are clearly defined, both as regards temperature and rainfall, January corresponding with the English July ; thus our *Summer* months would consist of December, January, and February ; *Autumn*, March, April, and May ; *Winter*, June, July, and August ; and *Spring*, September, October, and November ; January being our mid-summer, and July our mid-winter ; whilst March would commence Autumn, and September our Spring.

The annexed table shows the mean temperature, evaporation, and rainfall for several years at Perth for each of the seasons :— The temperature records extend over 15 years ; the evaporation 13, and the rainfall 36 years.

a. The gross Public Debt on the 30th June was, as shown in the 9th column, £23,703,953 7s. 3d. In addition to this amount the State was indebted to the Government Savings Bank, etc., for £268,487 9s. 6d. invested in the purchase of Bonds under the Agricultural Lands Purchase Act, and £1,109,500 in Mortgage Bonds under the Agricultural Bank Act. Unlike other Loan Issues made by the State, the Interest on these Bonds is not charged to Revenue, nor will the Principal be so charged should the funds accumulating under the respective Acts suffice for the purpose of Redemption. *b*. Premiums on Conversions. *c*. Discounts on Conversions. *d*. The £2,938 17s. 7d. shown here as expenses is really the cost of issuing £296,100 debentures, £50,000 of which issue has been converted into Local Inscribed Stock and so brought to account, exclusive of its share of these expenses. *e*. Included in Local Inscribed Stock below. *f*. Against these Authorisations the following flotations are earmarked :—Local Inscribed Stock, £3,281,900, Treasury Bills, £711,000.—Total, £3,992,900. *g*. The amount accumulated was utilised in connection with the redemption of the Loans on 15th April last, and is therefore excluded from this return ; the amount in the balance-sheet includes that sum. *h*. Includes Interest and Sinking Fund on 1st and 2nd Issues Local Inscribed Stock.

*Owing to the Commonwealth Government having discontinued the distinction between the State production and that of the other States of the Commonwealth, it is now impossible to show the oversea destination of locally produced exports in this table, as previously shown. In the case of the Interstate Transfers, however, the value of local Produce exported to each State of the Commonwealth is shown in the Summary of Table No. 13.

† Products of Australia originally exported abroad and now returned to Australia.

No. 10.—*GENERAL IMPORTS into the State of Western Australia from places outside the Commonwealth during the Year 1911.*

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1902." (Edwd. VII., No. 14).

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

NOTE B.—The "Quantities" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

NOTE

The Areas (rectangular) adopted are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed, they are units that can be readily subdivided & re-grouped at any future time into new districts & sub-districts without impairing their use for comparative purposes.

The figures printed next to the Red letters in the Statistical Areas on the Map represent the acreages under the various Cereal Crops. The figures with decimals, after these, represent the Average Yield per acre in bushels for grain, and in tons for hay. The Red circles represent, in bushels, the total wheat yields in the various areas.

No 5.—*Number of Holdings from which Returns were received for the Season 1911-1912, arranged in Acreage Series, and Total Area in acres, distinguishing Statistical Districts, Sub-Districts, and Areas of Western Australia.*

NOTES.—1. *The rectangular areas* adopted, which are shown on the map attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts, without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked *a, b, c,* or *d,* as the case may be, represent areas of 234⅜ square miles each. 2. Areas in parentheses and marked with an asterisk (*), are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are entirely unoccupied. Areas marked (†) are portions of areas only.

(†) The reason why Returns relative to certain alienated and leased land are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree in the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

* If importation took place during the year it was classified under some general heading, and not particularly specified. † It is possible that certain importations of currants and raisins are now returned as Dried Fruit, thus accounting for the apparent decrease under the two former headings, and the increase under the latter. ‡ Including other essential oils.

Note.—This table has been compiled with the special object of showing the values of the importations into Western Australia during the last 10 years of such products of the soil and of live stock as could have been produced within the State, but are at present introduced to supply the deficiency in local production. It serves as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

PART VII.—MINERAL STATISTICS AND WATER CONSERVATION.

No. 14.—*Return of Ores and Minerals (other than Gold) produced in Western Australia, also number of men employed in their extraction, as reported to the Mines Department during 1911 and previous years.*

NOTE.—As the collection of statistics of minerals, other than gold, was only commenced by the Mines Department in 1899, the mineral production previous to that year has been taken from the Customs Records. *See* Table 15.

feeders agreed to at 47 per week. § The term of many of the awards has expired, but the rates are still regarded as the standard rates ruling.
exceptional for the District. When two or more rates are shown in respect of only one classification of work, the difference in the rate corresponds to a difference
sibility of that work.

No. 24.—*Principal Works under control of the Goldfields Water Supply Administration to 31st December, 1911.*

(Information supplied by Water Supply Department.)

Source of Supply and outline of Headworks.	Main Works, Description.	Towns and Districts Supplied.				
		Name of Town or District.	Supply Main.	Length of Distributing and Reticulation Mains.	Service Reservoirs.	Remarks.
				Miles.		
Source of supply is the Helena River, Darling Ranges, where at about 18 miles in a direct line from Perth, an impounding reservoir having a capacity of 4,600,000,000 gallons has been formed by the construction of a straight line concrete overflow weir. Height of wall from bed of river is 100 feet. Height of wall from lowest part of foundations is 190 feet. Length of wall is 755 feet. Height of crest of wall above zero on Fremantle Tide Gauge is 420·16 feet. Catchment area is 364,000 acres. Annual rainfall recorded on the Catchment varies from an average of 41·05 inches in the vicinity of the Reservoir to 17·39 inches near the source of the river.	Helena Reservoir .. .. Other Reservoirs .. .. Pumping machinery, including buildings, tanks, sidings, etc. Main conduit is of Locking-Bar Steel Pipe of 30 inches internal diameter, 351½ miles long. The water is forced through this main to a net height of 1,290 feet in steps by a series of eight pumping installations placed at intervals along the line of conduit. No. 1 being at the Reservoir. No. 2 being at 1½ miles from Reservoir No. 3 being at 78 miles from Reservoir No. 4 being at 140 miles from Reservoir No. 5 being at 172½ miles from Reservoir No. 6 being at 218½ miles from Reservoir No. 7 being at 250 miles from Reservoir No. 8 being at 295 miles from Reservoir	Midland Junction, Guildford, and Bellevue, towns	Gravitation from Helena Reservoir, 10 miles of 13in. main	53	Concrete Tank of one million gallons capacity. * Children under the age of seven years are not criminally responsible; those who have attained that age, but are still under fourteen, are only criminally responsible if it is proved that at the time of the offence they were capable of knowing that they ought to have acted otherwise. In order, however, to show the complete number of charges against juveniles, those against children under seven and over fourteen years of age have been included in the above table. Neglected children formerly dealt with in this table, are now tabulated separately, *see* Tables Nos. 35 and 36.

* Exclusive of cost of Administration. † Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By "The Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools, as distinguished from "Government" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State. The average attendance, and, consequently, the percentage of attendance to enrolment at these schools from 1896 is partly estimated, some of the returns forwarded being obviously incorrect. ‡ Not ascertained previous to 1897. § Including schools closed during the year. *a* From and including 1897 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment." *b* Including one undenominational school, particulars of which are not included in next three columns. *c* Year ended 30th June.

Notes.—*Denominations.*—When two or more Religious Denominations authorise the same Instructor or Instructors to give religious instruction, the children who attend such are entered in Records and Returns as if each such denomination formed a separate and distinct class.

* For convenience sake, the heads of the Methodist, Presbyterian, Congregational, and Baptist Churches have agreed that clergymen belonging to any one of these denominations may be considered as the authorised delegate of the other three. Therefore, the attendance by a clergyman is credited to the denomination whose minister imparts instruction. † Special religious instruction has been given in 289 distinct schools.

B.—General Religious Instruction.

This instruction, which excludes dogmatic or polemical theology, is given in all schools. The number of children withdrawn from it, in accordance with the written request of parents, amounted to 2,043, made up as follows:—Roman Catholics, 1,833; Hebrew, 103; Seventh Day Adventist, 29; No Denomination, 14; Church of England, 26; Methodist, 5; Presbyterian, 10; Protestant, 2; Lutheran, 1; Mormons, 2; Freethinkers, 3; Mohammedan, 3; Christadelphians, 2; Congregational, 1; Agnostic, 7; Salvation Army, 1; Church of First Born, 1.

* Up to 6th April, 1903, the Society was known as "The Mueller Botanic Society." On this date the scope of work embraced was widened to include all branches of Natural History, and the title was changed to "The West Australian Natural History Society." In 1909 the title was changed to "The Natural History and Science Society of Western Australia," and it is now open to all branches of scientific research. Meetings of members are held monthly in the Society's Rooms at the West Australian Chambers, Perth, when papers are read on the different subjects embraced in the Society's curriculum. Fortnightly Field Excursions are made during the season.

*Prior to 1885, readings were not taken at 9 a.m. and 3 p.m., and the noon reading has been entered as the Monthly Mean. Since that date the mean is taken from the 9 a.m. and 3 p.m. readings. † The Thermometers were moved in August, 1885, to their present position in the Botanic Gardens, and as they have apparently given a slightly lower record since then, the means have been taken from 1886 only.

* Uncontested. † Of the 314 votes which were declared informal by the Returning Officer at the Subiaco Election, 256 so were declared on the ground of an alleged informality, which has subsequently been ruled by the Solicitor General as an insufficient cause for the rejection of the votes as informal. If, therefore, the 256 votes be deducted from the total informal votes for the Subiaco District, and from the number of informal votes recorded for the whole State, the respective percentages would be as follows :—Subiaco 1·47 %, and the whole State 1·13%—the latter under the system of *Compulsory* Preferential Voting, being actually 0·09% lower than the percentage of informal votes recorded at the 1908 General Election under the system of *Optional* Preferential Voting.

a From the first settlement of the colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports were taken either from the reports of the Harbour Master at Fremantle or from the Perth newspapers of that period. From 1838 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or *vice versa*.
b No records obtainable. *c* The figures for 1893 and subsequent years are for the year ended 30th June. *d* Exclusive of figures relating to Unclaimed Depositors' Fund, which for previous years have been included, but including figures relative to the Schools Savings Bank, which provision did not previously exist. *e* Departmental figures.

* Records of Outward Shipping for several years are not available, and for such years, therefore, the same figures are shown as for Inward Shipping. Where, occasionally, the correct Outward figures have been found recorded, they naturally clash with the system adopted for the other years. † Total Gold Export is included in Table No. 3, "Gold Production," pages 6 and 7, which comprises gold received at the Perth Mint. *a* The exports up to the year 1834 consisted only of supplies to shipping, of which no record was kept. *b* No records obtainable.

No. 5.—*Export of certain Articles, the Produce of the State.*
